

# Exercise 49

## THE MAGIC 8-BALL

Imagine being able to answer the hardest, most bedeviling, most intractable questions with ease! Sound too good to be true? Not with this application you're about to create:

This application is *much* easier than the last two, so let's lay out the steps we need — and I'll leave you to write the code.

### *Initial list of steps*

Write the code based on  
these steps

- Add an event listener to the "Ask The Eight-Ball" element
- Randomly select from one of the images to display
- Display the image
